Liquidation was the order of the market for Stock Exchange securities yesterday, all of the stocks and bonds having an international range being conspicuously weak. The movement was unexpected in Wall street, as cables from the leading foreign financial centers were more reassuring. The approach of the election-day holiday, too, had been expected to be marked, as usual, by the evening up of short contracts. The continued strength of the foreign exchange market still exerts an unsettling influence, although it is alleged that members of the late government bond syndicate are ready to play an effective part, if necessary, to prevent gold exports. tailroad earnings presented were mainly for the fourth week and month of October, and were favorable in all important cases, the St. Paul making a notable exhibit. The company increased gross for October \$860,985. The volume of business was close to the highest recent average. About the only stock in which there was any semblence of support was Sugar, and it scored second in point of activity. After an early decline of 5½ per cent. on reports of lower prices for foreign beet sugar it advanced 1½ per cent., and afterwards ruled, and closed above Saturday's The general market opened weak, and, aside from a slight halt at the

variously estimated at from 30,000 to 40,000 shares. In the late operations the dealings were erratic, but the closing was weak at close to the lowest of the day. Marked animation characterized the dealings in bonds yesterday, the average sales footing up \$2,503,000. The pressure against the Atchison and Reading issues, which had been a conspicuous feature of the trading in the preceding week, was re-sumed. The heavy selling of Atchison onds for foreign account is attributed to a misunderstanding or uncertainty as to the probable personnel of the board of directors. The general list was notably weak, and the dealings included a number of usually neglected issues. The more im-portant declines are: Consumers' Gas of firsts, 1% per cent.; Kansas & seconds, Wabash seconds, Erie fours extended. Northwest sinking fund fives and Atchison second trust receipts, 11/2; Kansas & Pacific consols trust receipts and Reading first incomes, 11/4; Kan-Carlisle 40-inch, 71/2c; Dwight Star, 74/2c; fours extended. Northwest sinking fund sas & Pacific seconds, 2; Kansas & Pacific thirds. 14; Kansas & Pacific fours, trust receipts, Brooklyn Elevated firsts, International and Great Northern seconds. Minnesota & St. Louis consol fives and Union

trust receipts, 1; St. Louis Southwestern firsts, 14; St. Louis Southwestern seconds, 116 per cent. Dealings in governments amounted to \$17. 000. In State mortgages \$10,000 Tennessee settlement threes were dealt in. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations:

LOCAL GRAIN AND PRODUCE. Week Opens with Trade Slow and

Few Changes in Values. Trade yesterday on the wholesale streets and on Commission row was rather quiet and in prices but few changes. In the drug and hide market some changes were made. and in produce. On Commission row the sidewalks are loaded with goods, and the question is how to sell such quantities of fruits and vegetables so as to pay the freight and leave anything for the producer. Apples and potatoes have not sold as low on this market in years. Hides are weak, green calf hides lower. The poultry and egg markets are steady, and both are in good request at prices quoted.

The local grain market is active. New corn is beginning to come in. Yesterday prices on new corn were a half cent higher. Old corn is unchanged. Track bids on the several cereals ruled as follows:

THE BULLS SUFFERED

HEAVY INCREASE IN VISIBLE SUP-PLY SENT WHEAT DOWN.

All Chicago Markets Dull and Depressed-Decided Slamp in Provisions Headed Off.

Trade to-day corn improved a small frac-tion, but all the other chief speculative receipts, 1,615 bu; Southern wheat, by sam-

tions was at 16c under Saturday's close. ern, 241/4621/2c; No. 2 mixed, 23c; receipts, Wheat started with a rush, but soon fell off. Predictions of more wet weather had off. Predictions of more wet weather had bu. Hay firm; active density offerno effect. Northwestern receipts were as suggestive as before of an undiminished supply from there and foreign markets evinced perfect acquaintance with the heaviness displayed here tat the opening. The visible supply statement was no more encouraging to the bulls than any other of the routine news of the day, and the market could not be driven into any movement which would take it outside of 4c range. The visible supply increased 2,504,-000 bu, which is a heavier addition than was looked for, but the price was only affected about le by it when it was first announced. The total amount now in sight is 52,990,000 bu, against 80,027,000 bu on the corresponding day of the year before. The day's receipts at Chicago Were 613 carloads, against 221 last year. Minneapolis and Dulutn got 1,768 cars, compared with 1,704 on Monday of last year, and 1,071 on the similar day of the previous year. The receipts a year ago at all the primary Western markets, together were only \$43,000 bu, while Minneapolis and Duluth alone got 1,232,000 bu to-day. Liverpool was quoted 4d lower at the opening and another 4d lower later in the day. Here December opened at from 58% @58%c, and its extreme range from then to within half an hour of the close was from the lower of the quotations named

up to 58%c. Corn was even more uninterestingly dull than wheat, although the fluctuations in November at least were a slight shade wider. The receipts to-day were 541 carloads. The total in the visible supply now is 4,854,000 bu, against 2,658,000 bu a year 29c in the last few minutes and closed at 12,000 bales, of which 1,000 were for that.

In oats activity was lacking the greater In oats activity was lacking the greater part of the session. December opened at 185%c, sold up to 187%c and closed at 185%c. 183%c. Saturday's final quotation was 185%c. Hog producas were sluggishly tenacious of the quotations they started with. The indication at the opening was for lower prices on account of the day's run of hogs numbering 52,000, but when R. W. Rawlinson took 1,000,000 pounds of ribs in a few minutes after the opening, which is equivalent to more than all the pork, lard and ribs together, which could be made out of to-day's big receipts of hogs, the downward to-day's big receipts of hogs, the downward tendency was arrested and the market ruled firm, winding up at the same quotations as prevailed at the close of Saturday. The leading futures ruled as follows:
